SOFTWARE DEVELOPER,  
WEB DESIGNER

---

Dear Hiring Manager,

I am writing to express my interest in the software developer position at your company. As a self-taught developer with a strong passion for coding and problem-solving, I am confident in my ability to contribute to your team and deliver high-quality software solutions.

My journey in software development began at a young age, fueled by my curiosity and fascination with technology. Over the years, I have dedicated myself to learning and mastering programming languages. While I may not have a traditional computer science degree, I have taken part in bootcamps and earned certifications to further expand my expertise. These experiences have allowed me to work on real-world projects and collaborate with other passionate developers.

I am proficient in various programming languages, including Python and JavaScript, and have experience working with both front-end and back-end development frameworks. I have a strong foundation in software development methodologies such as Agile and Scrum.

What sets me apart is my unwavering dedication to continuous learning and improvement. I stay up-to-date with the latest industry trends, and actively enhancing my skills. I am confident that my technical skills, combined with my passion for software development, make me a valuable asset to your team.

Thank you for considering my application. I would welcome the opportunity to discuss how my skills and experience align with your organization's needs. I am excited about the possibility of joining your team and contributing to your company's success.

Sincerely,
